

Supported Integrations: Overview

Supported Vendors & Products

The Skybox threat exposure management platform supports integrations with all leading networking and security technologies.

The list of supported vendors and products spans public and private cloud infrastructure, vulnerability discovery data, patch management systems, CMDBs, firewalls, routers, load-balancers and more, delivering 360-degree attack surface visibility.

VENDOR	PRODUCT	TYPE
A10 Networks	AX ADC Load Balancer	Load-balancer
Amazon	Amazon Web Services	Cloud
Arista		Router
Aruba		Wireless Controller
Avaya	ERS Routing Switch	Router
Avaya		Router
Barracuda	NG Firewall (formerly Phion)	Firewall
Barracuda	Firewall Control Center	Firewall Management
Blue Coat	ProxySG (300, 600, 900 & 9000)	Proxy
BMC	BladeLogic Network Automation (BNA)	Network Configuration Management
BMC	Remedy Suite	ITSM
Check Point	Gaia, Hotfix, LEA, Log Exporter	Firewall
Check Point	CMA, SmartCenter, MDS, Provider-1 - R80 & R81, Maestro	Firewall Management

VENDOR	PRODUCT	TYPE
Cisco	Application Centric Infrastructure (ACI)	SDN
Cisco	ASA, Firewall Service Module & PIX	Firewall
Cisco	Firepower Management Center (FMC)	Firewall
Cisco	IOS & IOS XE	Router
Cisco	Meraki MX Series	Firewall
Cisco	Nexus	Router
Cisco	Secure Workload (formally Tetration)	Workload Security
Cisco	Cisco Security Manager (CSM)	Firewall
Cisco	AireOS Wireless LAN Controller (WLC)	Wireless Controller
Citrix	Netscaler VPX	Load-balancer
Claroty		Operational Technology
CrowdStrike	Falcon (EDR & Spotlight)	EDR & Vulnerability Discovery
CyberX		Operational Technology
Dell	SonicWALL	Firewall
Extreme Networks		Router
F5	BIG-IP	Load-balancer
Forcepoint	NGFW Security Management Center (SMC)	Firewall Management
Forescout	CounterACT	Vulnerability and Asset Discovery
Fortinet	Fortigate	Firewall
Fortinet	FortiManager	Firewall
Generic	CMDB Parser	Vulnerability, Patch and Asset Discovery
Google	Google Cloud Platform (GCP)	Cloud
H3C (HPE)	Comware	Router
HP	Network Automation (HPNA)	Network Configuration Management
HP	Procurve	Router

VENDOR	PRODUCT	TYPE
Huawei		Router
Huawei	Eudemon	Firewall
IBM	BigFix	Patch Management
IBM	Security AppScan	Vulnerability Discovery
Illumio	Illumio Core	Workload Security
Indegy		Operational Technology
Infoblox	DDI	Network Configuration Management
Infoblox	NetMRI	Network Configuration Management
Juniper	Junos Space	Firewall Management
Juniper	Junos-based devices (J series, MX series, SRX) & Syslog	Firewall
Juniper	MX Routers	Router
Linux	iptables	Firewall
McAfee	ePolicy Orchestrator (ePO)	Asset Discovery
McAfee	NSM IPS	Intrusion Prevention
Microsoft	Active Directory	Asset Discovery
Microsoft	Azure	Cloud
Microsoft	Azure Firewall	Firewall
Microsoft	Defender for Endpoint	Asset Discovery
Microsoft	SCCM (v2 connector)	Patch Management
NMAP	Network Scanner	Asset Discovery
Nozomi Networks		Operational Technology
Palo Alto Networks	PanOS Firewall incl VM-Series	Firewall
Palo Alto Networks	Panorama	Firewall Management
Palo Alto Networks	Prisma Cloud (formally Twistlock)	Container Security
Palo Alto Networks	Prisma Cloud SaaS	Container Security
Pulse Secure	VTM	Load-balancer
Qualys	QualysGuard	Vulnerability Discovery

VENDOR	PRODUCT	TYPE
Radware	Alteon	Load-balancer
Rapid7	Nexpose	Vulnerability Discovery
Red Hat	Satellite	Patch Management
ServiceNow		ITSM
Siemens	Ruggedcom Rox 1 & 2	Router
SolarWinds	NCM	Network Configuration Management
Sophos	UTM	Firewall
Splunk		SIEM
Stormshield	SNS	Firewall
Tenable	Nessus	Vulnerability Discovery
Tenable	Tenable.sc	Vulnerability Discovery
Tenable	Tenable.io	Vulnerability Discovery
Trend Micro	Deep Security	Workload Security
Trend Micro	TippingPoint (formerly HP Tipping Point)	Intrusion Prevention
Tripwire	IP360 (formerly nCircle)	Vulnerability Discovery
Versa Networks	Secure SD-WAN	SDWAN
VMware	NSX-T	SDN
VMware	Cloud on AWS	Cloud
VMware	vShield Manager (Edge FWs)	Firewall
Watchguard	XTM	Firewall
Zscaler	Internet Access (ZIA) Cloud Firewall	SASE
